# INTERNSHIPS

## [High Tech High Internships](#)

At High Tech High, one of our design principles is Authentic Work. We believe that engaging students in the world outside of school is an important part of the journey as they learn about themselves and consider life after high school. Through school projects, students are challenged to collaborate, design, problem solve, and present their work. With internship, students have the opportunity to take these practices into the adult world of work. For four weeks, each student works full-time with a professional organization and completes a project designed to benefit the organization. Internship offers students a unique opportunity to experience the adult workplace in an authentic context so they can make informed decisions about college and career.
